INDEX OF SUBJECTS

PAGE

ANGIOGENESIS, activity in culture supernatant of antigen-stimulated lymph node cells 63
ANTIGEN-stimulated lymph node cells, angiogenic activity in culture, supernatant of 63
APOPTOSIS, morphological aspects of glucocorticoid-induced cell death in human lymphoblastoid cells 181

BASAL CELL CARCINOMA, an electron microscopic study of 149
BLADDER, URINARY, eosinophilic infiltrates in carcinoma unassociated with schistosomiasis 79
BLOOD CLOTTING, leucocyte disappearance reaction in non-immune acute inflammation 221
BONE MARROW, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution . 95
BOOKS RECEIVED—
Diagnosis of liver diseases, by Wallnofer, H., Schmidt, E. and Schmidt, F. W. (eds.), (G. Thieme: Stuttgart) . . 121
Forensic medicine. Three volumes, by Tedeschi, C. G., Ekert, W. G. and Tedeschi, L. G. (eds.), (W. B. Saunders: Philadelphia) 121
Pathology Annual 1977. Part I, by Sommers, S. C. and Rosen, P. P. (Prentice/Hall) 121
Pathology of ischaemic heart disease, by Crawford, T. (Butterworth) . . 122
Human pulmonary circulation (Harris & Heath), 2nd edition 122
The eosinophil. Vol. XIV in the series Major problems in internal medicine, by Beeson, P. A. and Bass, D. A. Edited by Smith, Lloyd H., Jr., (W. B. Saunders Co.) 123
BRADYKININ, increased plasma kallikrein activity and tumour growth suppression associated with intralesional bradykinin injections in hamsters . 1
BREAST, myoepithelial differentiation and basal lamina deposition in fibroadenoma and adenosis 107

PAGE

BRONCHUS, comparative study of the accuracy of area assessment by point counting for mucous glands . . 45

CARCINOGENS, histopathology of the rat liver following a single autoprotective dose of 3′-methyl-4-dimethylaminoazobenzene 71
CARTILAGE, ultrastructure of human foetal and neonatal hyaline 209
CELL CULTURE, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells . . . 63
leucocyte disappearance reaction in non-immune acute inflammation . . 221
morphological aspects of glucocorticoid-induced cell death in human lymphoblastoid cells 181
CELL FUSION mechanisms 125
CELL JUNCTIONS in human oesophageal epithelium 157
CELL KINETICS, morphological aspects of glucocorticoid-induced cell death in human lymphoblastoid cells . . 181
CYSTIC FIBROSIS, acid mucins in human intestinal goblet cells 197

DECOMPRESSION, ACUTE, ultrastructural study of lungs of rats to show the influence of frusemide 1
DEOXYRIBONUCLEIC ACID, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution 95
DESMOSOMES, cellular junctions in human oesophageal epithelium 157

ELECTRON MICROSCOPY, basal cell carcinoma 149
cellular junctions in human oesophageal epithelium 157
complete form of testicular feminisation syndrome 165
effects of acute decompression on the lung of rats: the influence of frusemide 189
endocytosis and formation of macrophage polykarya 215
experimentally produced post-vaccinial lymphadenitis in rabbits . . . 39

PAGE

ELECTRON MICROSCOPY, human foetal and neonatal hyaline cartilage . . 209
morphological aspects of glucocorticoid-induced cell death in human lymphoblastoid cells 181
placenta in prolonged pregnancy . . 173
pulmonary changes in hypoxic rats . 27
ENZYMES, LEUCOCYTE DERIVED, disappearance reaction in non-immune acute inflammation 221
EOSINOPHILS, infiltrates in carcinoma of the urinary bladder unassociated with schistosomiasis 79
ETHANOL-induced hepatotoxicity: experimental observations on the role of lipid peroxidation 11

FIBROADENOMA and adenosis of the breast: myoepithelial differentiation and basal lamina deposition in 107
FIBROSARCOMA, increased plasma kallikrein activity and tumour growth suppression associated with intralesional bradykinin injections in hamsters . 1
FOETUS, ultrastructure of human foetal and neonatal hyaline cartilage . . 209
FOREIGN BODY, ultrastructural study of endocytosis and formation of macrophage polykarya 215
FRUSEMIDE influencing acute decompression in lungs of rats 189

GIANT CELLS, multinucleate: mechanisms of cell fusion 125
GLOMERULI, normal human cells in culture 231
GLUCOCORTICOIDS used to induce cell death in human lymphoblastoid cells: morphological aspects 181
GOBLET CELLS of the duodenum, jejunum and ileum of neonates and infants with and without cystic fibrosis: study of difference in quantities of acidic mucins 197
GRANULOMA of the endocardium following cardiac catheterisation presumably caused from the glove powder used at operation 105
ultrastructural study of endocytosis and formation of macrophage polykarya . 215
GUINEA PIGS, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells 63

HAMSTER, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells 63
increased plasma kallikrein activity and tumour growth suppression associated with intralesional bradykinin injections 1
HEART, starch granulomata of the endocardium 103
HEPATOTOXICITY, ethanol-induced: experimental observations on the role of lipid peroxidation 11
HISTOCHEMISTRY, acid mucins in human intestinal goblet cells 197
HODGKIN'S DISEASE, immunoglobulin in Reed-Sternberg and Hodgkin cells pathogenesis of 239
HOMOGRAFT, growth of embryonic brain tissue transplanted subcutaneously in rats 91
HYPOXIA, pulmonary ultrastructural changes in hypoxic rats . . . 27
ultrastructural effects of acute decompression on the lung of rats: influence of frusemide 189

IMMUNOGLOBULIN in Reed-Sternberg and Hodgkin cells 35
IMMUNOPEROXIDASE TECHNIQUE used in the study of Hodgkin's disease . . 35
INFLAMMATION, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution . 95
leucocyte disappearance reaction in non-immune acute. 221
multinucleate giant cells . . . 125
INTESTINE, acid mucins in human goblet cells 197
IRRADIATION, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of 95

KALLIKREIN activity and tumour growth suppression associated with intralesional bradykinin injections in hamsters 1
KIDNEY, normal human glomerular cells in culture 231

LANGERHANS' CELL, electron microscopic study of basal cell carcinoma . . 149
LEUCOCYTES, disappearance reaction in non-immune acute inflammation . 221
LEYDIG CELLS, light and electron microscopy study of a complete form of testicular feminisation syndrome . 165
LIPID, PEROXIDATION, observations on its role in ethanol-induced hepatotoxicity 11
LIPOFUSCIN in spleen of mice . . . 113
LIVER, DRUGS AND PHYSICAL AGENTS, EFFECTS OF, ethanol-induced hepatotoxicity: experimental observations on the role of lipid peroxidation . . 11

PAGE

histopathology of the rat liver following a single autoprotective dose of 3′-methyl-4-dimethylaminoazobenzene . 71
LUNG, teratoma containing thymic tissue . 85
ultrastructural changes in hypoxic rats . 27
ultrastructural effects of acute decompression in rats: influence of frusemide 189
LYMPH NODES, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells 63
histological and ultrastructural changes in experimentally produced post-vaccinial lymphadenitis in rabbits . 39
immunoglobulin in Reed–Sternberg and Hodgkin cells 35
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution 95
pathogenesis of Hodgkin's disease . 239
LYMPHOCYTES, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells 63
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution 95
morphological aspects of glucocorticoid-induced cell death in human lymphoblastoid cells 181
pathogenesis of Hodgkin's disease . 239

MACROPHAGE, endocytosis and formation of macrophage polykarya: ultrastructural study 215
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution 95
multinucleate giant cells 125
normal human glomerular cells in culture 231
3′-METHYL-4-DIMETHYLAMINOAZOBENZENE, histopathology of the rat liver following a single autoprotective dose of . 71
MICRODENSITOMETRY, acid mucins in human intestinal goblet cells . . . 197
MITOGENIC ACTIVITY, introduction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution. 95
MORPHOMETRY, comparative study of the accuracy of area assessment by point counting for bronchial mucous glands 45

PAGE

MOUSE, endocytosis and formation of macrophage polykarya: ultrastructural study 215
splenic lipofuscinosis 113
MUCINS, ACID in human intestinal goblet cells 197
MUCOUS GLANDS of bronchi: comparative study of the accuracy of area assessment by point counting 45
MYOEPITHELIUM, differentiation, and basal lamina deposition in fibroadenoma and adenosis of the breast . . 107

NEONATES, acid mucins in human intestinal goblet cells 197
ultrastructure of human foetal and neonatal hyaline cartilage 209

OBITUARY NOTICE
Cuthbert E. Dukes, O.B.E., M.D., M.Sc., F.R.C.S., F.R.C.Path., D.P.H. 255
OEDEMA, PULMONARY, ultrastructural changes in hypoxic rats 27
OESOPHAGUS, cellular junctions in human epithelium 157
OSTEOCLASTS, multinucleate giant cells . 125

PANCREAS, CYSTIC FIBROSIS, acid mucins in human goblet cells 197
PHAGOCYTOSIS, normal human glomerular cells in culture 231
PHYTOHAEMAGGLUTININ, angiogenic activity in culture supernatant of antigen-stimulated lymph node cells . . 63
PIGMENT, splenic lipofuscinosis in mice . 113
PLACENTA in prolonged pregnancy: ultrastructural study 173
PLEURISY, leucocyte disappearance reaction in non-immune acute inflammation . 221
POINT COUNTING, comparative study of the accuracy of area assessment for bronchial mucous glands 45
POLYKARYONS, endocytosis and formation of macrophage polykarya: ultrastructural study 215
multinucleate giant cells 125
PREGNANCY, PROLONGED, ultrastructural study of placenta 173
PSEUDOHERMAPHRODITISM, light and electron microscopic study of a complete form of testicular feminisation syndrome 165

RABBITS, histological and ultrastructural changes in experimentally produced post-vaccinial lymphadenitis . . 39
RATS, ethanol-induced hepatotoxicity: experimental observations on the role of lipid peroxidation 11

PAGE

RATS growth of embryonic brain tissue transplanted subcutaneously . . 91
histopathology of liver following a single autoprotective dose of 3′-methyl-4-dimethylaminoazobenzene . . 71
induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution 95
pulmonary ultrastructural changes in hypoxia 27
ultrastructural effects of acute decompression on the lung: influence of frusemide 189
REED–STERNBERG and Hodgkin cells: study of immunoglobulin 35
pathogenesis of Hodgkin's disease . 239

SCHISTOSOMIASIS, eosinophilic infiltrates in carcinoma of the urinary bladder unassociated with 79
SPLEEN, lipofuscinosis in mice . . 113
STARCH granulomata of the endocardium . 103

TERATOMA of the lung containing thymic tissue 85
TESTICULAR FEMINISATION syndrome: light and electron microscopic study . 165
THYMUS, induction of macrophage DNA synthesis *in vitro* by non-immunological inflammatory exudates: effect of irradiation and thymus or bone marrow cell reconstitution . . 95
teratoma of the lung containing thymic tissue 85
TISSUE CULTURE, normal human glomerular cells 231
TRANSPLANTATION, growth of embryonic brain tissue transplanted subcutaneously in rats 91
TUMOURS, ANIMAL, GENERAL, increased plasma kallikrein activity and tumour growth suppression associated with intralesional bradykinin injections in hamsters 1
TUMOURS, HUMAN, GENERAL, multinucleate giant cells 125
TUMOURS, HUMAN, INDIVIDUAL, electron-microscopic study of basal cell carcinoma 149
eosinophilic infiltrates in carcinoma of the urinary bladder unassociated with schistosomiasis 79
myoepithelial differentiation and basal lamina deposition in fibroadenoma and adenosis of the breast . . 107
pathogenesis of Hodgkin's disease . 239
teratoma of the lung containing thymic tissue 85

VIRUS, VACCINIA, histological and ultrastructural changes in experimentally produced post-vaccinial lymphadenitis in rabbits 39

INDEX OF AUTHORS
